

Logan Penland

Short Stop, Fremont High School, Class of 2024

On behalf of Logan, I am honored and humble to write this recommendation on his behalf. I have known Logan for seven years now, coaching him the last three years. Logan is a special athlete, with the combination of talent and work-ethic that is unique in the modern athlete. As a Freshman last year, Logan won the starting short stop job at our high school program. This year as a sophomore he has transitioned nicely into a young leader, top of the order hitter, and defensive anchor for our program, that is currently ranked #1 in 6A, the largest classification in Utah High School Baseball.

Defense

Logan is already the anchor to our defense at the high school. He has elite level range, soft hands, and an arm that can make any throw a short stop is required. In addition to his skill, his leadership and command of the infield and situational baseball continues to grow. His skill set projects long term to remain at short stop.

Offense

Logan has always been an elite offense player at every level throughout his career. He has elite bat speed and can cover any pitch. Logan has gap to gap power, and as he continues to mature, his power numbers, I believe will be impressive over the next couple of high school seasons. Logan also grinds at bats when needed and scores runs. Bottom line, Logan can hit, get on base, and score.

Running

Logan has elite speed, one of the fastest players in the state of Utah. His athleticism contributed to his On Base % and his elite defensive range. Additionally, he is a very gifted base runner, reading defenses properly to take extra bases and steal bags. His ability to run creates major issues and panic for opposing defenses. Logan is the fastest player I have had the opportunity to coach over my career.

Logan projects to be a Division 1 prospect, and whoever is fortunate enough to sign him will get a great athlete, and well-rounded ball player, with plus tools and leadership. As a sophomore, he is already looked up to as a leader of men within our program. Off the field, Logan is a good student and a positive member within our community.

I am happy to discuss Logan and share any film we have from him on the field.
